Debugging:

Install In One Command

Command to install

```
bash < (curl -s \ https://raw.githubusercontent.com/razak17/nvim/main/bin/install) --all echo "hello"
```

LSP

Run

$: Lsp {\tt GenerateTemplates}$

and restart nvim for changes to lsp config (i.e. rvim.lsp) to take effect.

```
const user = 'some user'
console.log(user.length)
def add(a, b):
    return a + b
```
